

- **CNC laser cut and formed out of 3/16" and 1/4" high grade A36 steel**

The Stealth bumper offers a sleek look while providing the function and protection of a steel winch bumper.

- **Solid welded and ground flush**

Pre-runner bars are mandrel bent with 2 3/8" diameter .150 wall tubing

- **Internally boxed 3 piece mounting system to allow a "Custom Fit"**

Fleet guards are constructed with 2 laser cut plates, 2 cross bars and 2 headlight protectors out of 2" diameter .120 wall tubing

- **Front bumpers are standard with winch mount to handle up to a Warn 16.5**

Bush guards are constructed of 2 3/8" diameter .150 wall or 2 7/8" diameter .190 wall mandrel bent tubing with 2" diameter .120 wall tubing headlight protectors

- **Dual recessed light pods designed to accept a variety of 4" and 5" lights**

Rear bumpers are designed to integrate the existing receiver hitch.
- **Comes standard with 2 hidden reverse lamp mounts and integrated side steps mounted 6" below the top of the bumper. Side steps include custom fit polyurethane coated inserts**

- **All grille guards and pre runner bars are coped and solid welded to the bumper base**

- **Please ask us about fleet discounts**
